

Danish Urn Approved By the Green Burial Council

We are proud to announce that the **NatureUrn** has been certified by the Green Burial Council.

The Green Burial Council <http://www.greenburialcouncil.org> works to provide the public with eco friendly burial options by setting standards and through certification of suitable products and Nordmark Jacobsen is happy to be working with the GBC as an approved provider.

The NatureUrn is a new biodegradable urn made in Denmark. The urn is sturdy and completely stable until buried. The closure makes it suitable for scattering. The material is plant based.

Nordmark Jacobsen is a family company developing environmentally friendly products for the death care industry.

For more information please visit www.natureurn.com or contact Rolf Jacobsen at **Nordmark Jacobsen**, North Vancouver, BC rnj@natureurn.com .
